

# DENTAL R.A.T. AUDIO FEEDBACK HELP SHEET

**START AT DENCEPTDENTAL.COM  
AT THE BOTTOM, UNDER SUPPORT**

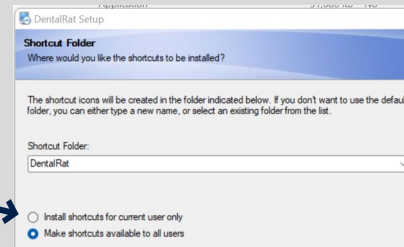

Click on the link, go to "Downloads" Page and find the version you need.

Find and download your version, Double click the ZIP and run.

Accept and continue until you get to the "Shortcut Folder". Change to "Make shortcuts available to all users." and click next.

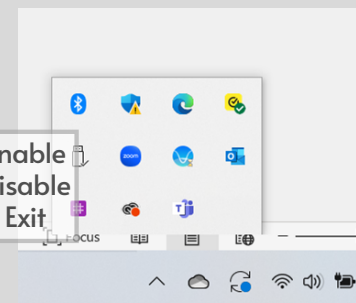

Continue through each until you finish. Then look on your desktop for this purple # Icon and double-click it.

You should see the # icon in the bar at the bottom of your screen, or if you click on your in the hidden icons you will see it. If you do not get audible numbers when you type a number, then right click and select enable.

If you have more than one of the # in your icons, right click and "Exit" until you only have 1 left. (This will also solve it sounding bad or echoing.)

If you don't want to hear the numbers, right click on the # and disable.

Does it sound bad? You may have it opened more than once.
